- 1) In order to maintain a disease-free environment, we require all pets to be current on vaccines. If Mountaineer Animal Clinic (MAC) did not administer vaccines, proof of current vaccinations by your regular veterinarian must be provided. Vaccines must be given according to manufacture label. If you present your pet for boarding with overdue vaccines or no proof of vaccines, they will be administered as necessary at owner's expense.
- 2) We have a flea, tick, and mite free environment at MAC. In order to maintain this environment we do not allow bedding or toys from home to be admitted with your pet. In order to ensure your pet's comfort we have installed fully heated floors.
- 3) For your convenience and to keep your pet feeling the best we will supply Hill's Science Diet Sensitive Skin/Stomach diet while your pet is here. If your pet is on a special diet please bring it with them in a sealed container. If your pet is in on a Hill's prescription diet you may purchase a small bag here for your pet while he/she is here. This bag will be sent home with you. If you prefer to provide your own diet, please bring an appropriate amount in a sealed container.

I understand that in the event of illness, the staff will immediately attempt to contact me or my agent to discuss the problem and treatment options. If the clinic is unable to contact me immediately I give my authorization to initiate appropriate treatment until myself or my agent can be reached.

I understand there is an additional charge for any pet deemed aggressive during the boarding period.
